Brand	S/N	Model/Style	Case Finish	Year Mfd.	Stack #
Western Electric Piano Mfr: Seeburg.	159121	A	-----	1924	----
Other Attributes: No xylophone or Selectra.					
Western Electric Piano Mfr: Seeburg.	161264	A	-----	1925	----
Western Electric Piano Mfr: Seeburg.	162171	A	Oak	1926	----
Comments: No name cast in piano plate. Purchased in 1967 by Don MacDonald from its original location, the Shamrock Taven in Namioka, Illinois. The day after MacDonald acquired it and removed it from the tavern, a kitchen grease fire destroyed the building. Don repaired it and sold it to the Trent Motel and Restaurant in Ballwin, Missouri in 1969. In 2013, he was able to acquire it again and plans to give it a complete restoration.

Western Electric	160849	C "Mascot"	-----	1925	----
Piano Mfr: Western Electric.					
Comments: Originally located in Cleveland, OH.					
Western Electric	161222	C "Mascot"	Golden Oak	1925	----
Piano Mfr: Western Electric; Hammers are original, date not yet known					
Instrumentation: Piano with Mandolin Attachment.					
Stack Type: Seeburg stack (late, 2-tier).					
Roll Mechanism: Plate metal sides, floating guide rods over tracker bar, serial number 1198.					
Pump Type: Horizontal bellows, wood pump sticks, fixed center board, floor mounted, with cast aluminum flat belt pulley.					
Coin Entry: Not original; dime slot. Switch: Ratchet wheel counter, flat copper wiper-blade switch, cast iron box. Box: Cash box is missing.					
Art Glass: Original top and lower (single panel type) front is missing, and have been replaced with home made parts. No art glass.					
Other Attributes: Roll mechanism serial number 1198.					
Comments: The piano has J.P. Seeburg cast into the frame instead of Western Electric. The original top and lower (single panel type) fronts are missing, and have been replaced with home made frames containing large sheets of red and green Plexiglas. The player mechanism appears to have had some work done at some time in the distant past, but it still has most of the original tracker bar tubing which is solidified. A suction box has been added, but the piano does not play at all presently. The piano action with its original hammers, the case, and piano strung back all appear to be in very good condition. Motor is not original; has an Ampico grand motor installed. Piano was purchased by its former owner in a restaurant auction in or around Washington, DC around 2010. It was found advertised for sale in November 2015 at their home in Silver Spring, MD, just outside of Washington, DC.

Western Electric	163171	X	Oak	1926	----
Piano Mfr: Seeburg; Date stamped on piano hammers: "N 14 1926"					
Instrumentation: Piano with mandolin attachment, and standard xylophone (see comments).					
Roll Mechanism: Plate metal sides, floating guide rods over tracker bar, serial number 1547.					
Art Glass: Beveled art glass.					
Comments: Piano hammer date stamp is only on two original (removed and in my possession) hammers (19 and 20). An inked line may represent a portion of a "U" prior to the "N," but cannot confirm. The rest of the date is inked clearly and boldly. Full restoration by D.C. Ramey, 12/2011-05/2012. David Ramey Jr. installed a simple device on the xylophone that mechanically keeps the reiterating pallet valves from working when you want it to play single stroke. When it moves back out of the way, the xylophone reiterates as usual.
