Total items listed in this report: 114

- Style Notes: 1. The state designation for destination cities are occasionally omitted. However, missing state designations are usually obvious, and so the state designation, if any, are automatically appended within enclosing [brackets].
2. The original ledger material has been slightly edited and obvious spelling errors corrected, but in all instances the original intent has been preserved. Otherwise the reader would be confronted with an endless number or annoying (sic) notations.
