Total items listed in this report: 48

Style Notes: 1. An asterisk (*) after a serial number flags the item as being a first instance or occurrence within the ledger/database.

2. Text inserted by the Editor is placed within enclosing [brackets].

3. The original ledger material has been slightly edited and obvious spelling and location errors corrected, but in all instances the original intent has been preserved. Otherwise the reader would be confronted with an endless number of annoying (sic) notations.
